CONDUCTED BY

**BROTHERS OF THE CHRISTIAN SCHOOLS.**

---

This Institution offers Students every facility for acquiring a thoroughly Christian and practical Education—an education that will not only enable, but engage them to fulfill faithfully their duties as Christians, and thus make them good and useful members of society.

The Brothers are trained to the work of education; it is their vocation—the sole object of their Society. They live in the same house, sit at the same table, preside at the recreations, and, as far as possible, form a family circle with the Students, in order the more easily to gain their confidence, and thus be in a position to direct them successfully in their studies.

---

## THE STUDIES.

The Studies are divided into two distinct courses—Collegiate and Commercial.

The usual Academic Degrees are conferred on those who merit the distinction.

The Business or Commercial Course is thoroughly organized, and forms a separate Department. A Diploma is awarded to those who complete this course and pass the required examination.

All the classes are examined publicly at the end of each Term.

The result of the monthly examinations of each Student is sent to the Parents or Guardian.

Besides the usual Class Exercises in Elocution, Literary Societies are organized to give the Students further opportunity for the cultivation of General Literature and Public Speaking.

---

### IMPORTANT FACTS

We would call your attention to the following facts:—Our prices are lower than of any other make. Our reasons for these statements are: 1st—We have a more reasonable price. 2d—We are the owners of the patent rights for our new machine enabling us to make five rods to one made on any hand power machine.

### Additional Facts Regarding

We use only the best Bessemer steel wire guaranteed to stand as firm as iron. This fence can be taken up and moved without injury, and used in other places. It is rendered firm. As there are no bards in our wire, the terrible loss of cattle by cutting it up is nominal—two men being able to put up a mile per day. Our new machine. We give the wire a double twist between the pickets, thereby increasing the strength of the fence. This is the only fence that does not sag.
